

GOLD PULSE FX TRADE

Official Business & Compensation Presentation

Gold Pulse Fx Trade is an institutional-grade algorithmic trading platform engineered to deliver automated, consistent daily profits across global Forex and Cryptocurrency markets. Investors enjoy complete capital liquidity, daily automated yields, and a robust 20-level referral commission structure with transparent qualification rules.

Key Platform Highlights & Ecosystem Pillars

Pillar	Specification & Value	User Advantage
Daily ROI Yield	1.00% Daily Profit Yield	Automated payouts 7 days/week (Dubai Timezone)
Minimum Activation	\$100.00 Minimum Package	Accessible entry threshold for all global traders
Capital Liquidity	Deactivate & Refund Anytime	Stop package & refund principal to wallet for withdrawal
Referral Program	20-Level Unilevel System	Earn on daily ROI generated up to 20 levels deep
Leadership Rewards	Up to \$25,000 Cash Bonus	Earn extra wallet rewards based on team growth

1. Daily ROI Yield System

- **Daily Payout Rate:** Every active package earns **1.00% daily ROI yield** credited directly to the user's primary wallet.
- **Calculation Example:** On a **\$1,000 package**, the system credits **\$10.00 Daily ROI** every single day.
- **Active Threshold Rule:** Users must maintain a minimum active package balance of **\$100.00** to receive daily ROI payouts. If active investment drops below \$100, account status reverts to 'Free' until reactivated.
- **Package Deactivation & Liquidity:** Users have complete capital control. Clicking '*Deactivate & Refund*' stops future daily ROI for that package and instantly credits the full principal amount into the wallet for immediate withdrawal.

2. 20-Level Unilevel Referral Commission Plan

Gold Pulse Fx Trade features a high-yield 20-level unilevel compensation model. Unilevel commissions are calculated as a percentage of the **Daily ROI generated** by team members in your downline structure.

Level Range	Commission Rate	Payout Basis	Direct Referrals Required to Unlock
Level 1 (Directs)	20.00%	20% of Daily ROI generated by L1 team	1 Direct Referral
Level 2	10.00%	10% of Daily ROI generated by L2 team	2 Direct Referrals
Level 3	10.00%	10% of Daily ROI generated by L3 team	3 Direct Referrals
Levels 4 – 10	5.00% each	5% of Daily ROI generated by L4–L10 team	4 to 10 Direct Referrals (1 per level)
Levels 11 – 15	2.00% each	2% of Daily ROI generated by L11–L15 team	11 to 15 Direct Referrals (1 per level)
Levels 16 – 18	3.00% each	3% of Daily ROI generated by L16–L18 team	16 to 18 Direct Referrals (1 per level)
Levels 19 – 20	2.00% each	2% of Daily ROI generated by L19–L20 team	19 to 20 Direct Referrals (All 20 Unlocked!)

Key Referral Qualification Rule (1 Direct = 1 Level Unlocked):

- To unlock commission payouts at **Level N**, a user must have sponsored at least **N active direct referrals**.
- **Example:** Sponsoring **5 active direct members** unlocks commission payouts for **Levels 1, 2, 3, 4, and 5**.
- Sponsoring **20 active direct members** unlocks the full **20-level unilevel compensation engine**.
- **Beneficiaries must maintain an active paid account** (\$100 min investment) to receive referral commissions.

3. Leadership Royalty Rewards & Withdrawal Rules

As your team expands, Gold Pulse Fx Trade awards progressive leadership tier recognitions and substantial cash bonuses.

Reward Tier	Team Requirement	Volume Benchmark	Reward Payout
Tier 1	10 Team Members	Qualified Team Business	Badge Recognition
Tier 2	50 Team Members	Qualified Team Business	Leadership Recognition
Tier 3	250 Team Members	Qualified Team Business	Executive Status
Tier 4 (Top Rank)	1,250 Team Members	Qualified Team Business	\$25,000 Cash Bonus

Wallet & Withdrawal Policy Summary

- **Minimum Withdrawal:** \$10.00 USD threshold per withdrawal request.
- **Security Verification:** Withdrawals require a **6-digit Email OTP** code sent to the user's registered address.
- **Instant Package Refund:** Deactivated packages credit 100% of the principal package price back into the wallet instantly.
- **Transparent Auditing:** Every wallet increment/decrement is logged in real-time under *Wallet Logs*.
